MESSAGE FROM THE CHAIRMAN

On behalf of Directors of Sasol Khanyisa (Board) the Board, I present to you the Interim Report for the six months ended 31 December 2020 for Sasol Khanyisa Public (RF) Limited Group (Sasol Khanyisa Public).

Together with the Sasol Khanyisa Interim Results the Board felt it useful to provide you with pertinent information on Sasol South Africa Limited's (SSA), Interim Results for the six months ended 31 December 2020.

Performance of SSA

The SSA Group delivered a strong set of results for the six months ended 31 December 2020, despite the effects of the COVID-19 pandemic and the decline in crude oil prices. The combined effects of the weaker average Rand/US Dollar exchange rate, stronger chemical prices in certain sectors, stronger overall demand for products and management efforts to decrease cash fixed cost, partly negated by the lower oil prices, resulted in earnings for the period of R6,1 billion, a 65% increase compared to the prior period. Within a volatile and uncertain macroeconomic environment, the businesses still delivered resilient results with a strong volume, cash fixed cost and working capital performance.

THE KHANYISA STORY – Continued

JUNE 2018

The Sasol Khanyisa transaction

On 1 June 2018, Sasol implemented its new Broad-Based Black Economic Empowerment (B-BBEE) ownership structure, known as the **Sasol Khanyisa** transaction. The Sasol Khanyisa transaction is made up of the Sasol Khanyisa Employee Share Ownership Plan Trust and Sasol Khanyisa Public. **YOU** are a shareholder of the Sasol Khanyisa Public portion of the Sasol Khanyisa transaction.

Sasol loaned R8,3 billion (interest bearing) to Sasol Khanyisa Fundco which enabled it to purchase 26 503 642 ordinary shares in SSA. The purchase of these ordinary shares meant that Sasol Khanyisa Public, as 100% shareholder of Sasol Khanyisa Fundco, could issue Sasol Khanyisa ordinary shares to YOU, its shareholder.

The 10-year goal

Sasol Khanyisa's goal is to repay the loan within the **10-year period**, however, this will depend on the performance of SSA and its ability to pay dividends. The better SSA performs, the quicker Sasol Khanyisa pays off its loan from Sasol. At the end of the 10-year period (or earlier if the debt is fully repaid), the net value in SSA shares will be exchanged for SOLBE1 shares on a fair value-for-value basis which will be distributed to shareholders. Any debt not yet repaid at the end of the 10-year period will be settled using the net value of the SSA shares and will reduce any distribution to shareholders.

JUNE 2028

The participants

Sasol Inzalo Groups, Sasol Inzalo Public and electing SOLBE1 shareholders were invited to participate in the Sasol Khanyisa transaction. The participants are now shareholders of Sasol Khanyisa Public.

The terms of the agreement

The loan was granted under the agreement that Sasol Khanyisa Fundco would repay the loan over a period of 10 years. The loan attracts an interest rate of 75% of the SA prime interest rate. The debt repayments on this loan (including interest) are to be paid off using a portion of the dividends that SSA pays out to Sasol Khanyisa Fundco. As dividends are declared by SSA, 97,5% of the dividends received by Sasol Khanyisa Fundco will be used for the debt repayments to Sasol. 2,5% of the dividends received will be distributed to the shareholders of Sasol Khanyisa Public – “trickle dividend”.

Trickle dividend flow for Sasol Khanyisa Public shareholders

As dividends are declared by SSA, **97,5%** will be utilised to repay the debt and interest. **2,5%** will be **distributed** to shareholders.

NOTE TO THE INTERIM FINANCIAL REPORT

1 Long-term financial assets

Sasol Khanyisa Public indirectly owns 26 503 642 ordinary shares (9,2%) in the issued share capital of SSA.

SSA is a subsidiary of Sasol Limited and houses the majority of the Sasol Group's South African operations.

The acquisition of the Sasol Khanyisa Shares in SSA was funded by way of preference share funding of R8,3 billion (vendor funding) from Sasol Limited. The vendor funding attracts interest at 75% of the SA prime interest rate and will be repaid during the 10 year empowerment period or earlier.

As dividends are declared by SSA, 97,5% of these will be utilised to repay the vendor funding, as well as the related financing cost, calculated at 75% of prime rate. 2,5% of dividends will be distributed to Sasol Khanyisa Public ordinary shareholders as a trickle dividend. At the end of the 10 year transaction term, or earlier, if the vendor funding is repaid, the net value in SSA shares will be exchanged for SOLBE1 shares on a fair value for-value basis which will be distributed to shareholders. Any vendor funding not yet settled by the end of the transaction term will be settled using the net value of the SSA shares, and will reduce any distribution made to participants.

Since any ultimate value created for shareholders will be granted in the form of SOLBE1 shares, the accounting for this transaction is similar to an option over Sasol black economic empowerment ordinary shares granted for no consideration.

On 28 September 2020, a total dividend of R183,8 million was received from SSA. Of this amount, R179,2 million was utilised to repay the vendor funding and R4,1 million was paid as a dividend to the Sasol Khanyisa Public shareholders.
